Some f these figures have already leaked out and they have helped wonderfully in

Steel stocks maintained their strength on active trading and the Brooklyn Rapid Transit boom waxed fatter on the confidence of its backers that this company is to obtain its subway fran-chises.

A new high record was made by Northern Securities on the curb. The price went to 1703-4 within the first hour. Reports of a prospective extra dividend from the Northern Securities Company were officially denied, but persons close to the fountain of power say that the Northern Pacific and Great Northern directors are likely to "cut a melon" soon. Each of these companies has a goodly surplus, and the current earnings are far in excess of the charges and dividends paid. The action of the adjourned annual meeting of Northern Securities stockholders in electing directors "to Serve for three years," caused some surprise in the Birect, inasmuch as the highest court in the land has orde

ANOTHER HIGH

RECORD FOR N. S.

Northern Securities made another new high record on the curb to-day, selling up to 170 3-4, but did not hold at that figure. The reports of an increased dividend, current yesterday, were misconstrued. It was stated on good authority to-day that the reports did not refer to the dividend on Northern Securities, but to Great Northern preferred and Northern Pacific, which will be acted on at the end of the week.
